NICE Diabetes guidance glucose monitoring holding statement

On Thursday 31st March 2022, the National Institute for Health and Care Excellence (NICE) updated the recommendations in their Diabetes guidance in relation to glucose monitoring.

Doncaster CCG is aware of this updated guidance and patients should be assured that we are working closely with local Diabetes Specialist colleagues and other local stakeholders in relation to the implementation of this updated guidance, with the aim to maximise benefits, prioritise Diabetes patients with the greatest clinical need, and allow all patients access to the best possible treatment for their clinical circumstances. We would politely ask our patients to please bear with us whilst we complete this process.

Further information will be released when available in due course.

Helping you keep well
