

13th September 2022

NICE Diabetes guidance glucose monitoring statement

On Thursday 31st March 2022, the National Institute for Health, and Care Excellence (NICE) updated the recommendations in their Diabetes guidance in relation to glucose monitoring.

Doncaster and Bassetlaw Place is aware of this updated guidance and have agreed the commissioning and clinical recommendations. However, patients should be assured that we are working closely with local Diabetes Specialist colleagues and other local stakeholders in relation to the implementation of this updated guidance, with the aim to maximise benefits, prioritise Diabetes patients with the greatest clinical need, and allow all patients access to the best possible treatment for their clinical circumstances.

If you have further questions, please contact the Doncaster Place Medicines Optimisation Team by emailing
